(Ethics and Society) Write clear, rigorous, and coherent essays on basic ethical issues in which different positions and arguments are explained, compared, and evaluated. Understand argumentative texts and put the key arguments into their own terms.

Graded essays in which students are required to explain and evaluate rival arguments on key issues and show that their knowledge is based upon references to the texts, not just lecture material.

Several modes of evaluating the perceived success of the course are utilized:
- CAPE evaluations.
- End of course evaluations to determine if student writing abilities have improved.
- Weekly instructor-led meetings with the teaching assistants to evaluate their effectiveness and the effectiveness of discussion sections.
- The evidence is evaluated by the course instructor, teaching assistants, and the Warren College Provost. Additionally, the Warren College Executive Committee of the Faculty and other periodic faculty review committees, such as those convened during an EPC review, evaluate the Ethics and Society courses.
- Process: Critical evaluation of student improvement and the effectiveness of the course in creating improved writing and speaking skills in critical argument.

To reevaluate the structure and effectiveness of course requirements and the tools of learning and to improve them to ensure more effectual learning results.

Through completion of these sets of courses, students will demonstrate an ability to clearly express ideas, analysis, and arguments in various writing formats.

Students enroll in any six/three courses from a single department or choose Interdisciplinary Programs (courses from a variety of departments and categories). Three of the six must be upper division. Also, students have the option of choosing a department minor(s) if the classes selected meet the college’s rule on non-contiguity.

Outcomes for the requirement are assessed through:
- Transcript review
- Degree audits
