Subject: **Reminder -** Call for Nominations, Summer Graduate Teaching Scholars Program - Summer 2023

Dear Colleagues,

I am pleased to announce the call for nominations for the Summer Session 2023 [Summer Graduate Teaching Scholars Program \(SGTS\)](#). This program provides opportunities for some of our top graduate students to gain mentored teaching experience while serving as an instructor of record for a UC San Diego undergraduate course.

General Campus department chairs and program directors are invited to nominate advanced graduate students to teach in Summer Session 2023 as Associates-In as part of the program. Graduate student teaching scholars will receive the regular Summer Session salary as Associates-In and a \$1,200 payment for participation in the training component of the program. Faculty mentors will receive a \$500 payment to a research account.

This is an excellent professional development program for graduate students interested in teaching. Additionally, the program increases Summer Session course offerings and provides undergraduate students the opportunity to take courses taught by advanced graduate students who have an interest in teaching.

We encourage all departments and programs to submit nominations. To be eligible, graduate students need to advance to candidacy by March 1, 2023. Priority will be given to graduate students who will be serving as Associates-In for the first time. Please note that eligible recipients must have successfully completed the Teaching + Learning Commons Engaged Teaching Hub teaching workshop series, [Introduction to College Teaching](#) or be enrolled in the workshop for fall 2022 or winter 2023. In addition, scholars must also take the [Course Design Studio Workshop](#) in either winter or spring 2023.

Please visit the [SGTS website](#) for program information and details regarding eligibility, enrollment criteria, guidance on nomination components, and the online nomination submission instructions. Nominations and supporting documentation are due by Thursday, November 17, 2022. Recipients will be announced before the winter break. Please contact Hailey Caraballo at hlcaraballo@ucsd.edu if you have questions about the program.

With best regards,

Elizabeth H. Simmons
